NEWSLETTER 3, APRIL 2022

Partners

On 12-14 April 2022, the joint staff and learners training of project 'Circles of Arts' took place in Lecce (Italy). The project partners are Fundacja Pro Scientia Publica (Poland), EduVita (Italy) and Naz Hayat (Turkey).

During the activity, participants over 60 from Poland and Turkey had the opportunity to exchange and share their talents and passions with seniors from Lecce.

Adult educators and seniors expressed their emotions through theatre techniques, art therapy and natural resource therapy, admired Turkish songs and dances, and visited the workshop of a local ceramics artisan. These experiences will be described by the partners in a good practice guide.

The project is dedicated to three groups: senior citizens, young people and educators working with older people. The main aim of the project is to exchange pedagogical and artistic experiences, speak a common language of art and learn about the cultural heritage of the partner countries. The project promotes active ageing, art, culture and creativity.

Co-funded by the European Union
