

# Circles of Arts

Circles of Arts is an Erasmus+ project which aims to develop and spread the culture and art of different regions as well as a passion for art among seniors, young and adult educators. The project has several objectives, including sharing experiences in art and teaching, using art as a universal language, and promoting different cultures and traditions locally and internationally. During the project, each organisation provided workshops for at least 10 participants, organised 2 dissemination events, and senior learners could take part in international activities. We also developed a toolkit which consists of multiple art-connected activities to be used during workshops. Another result are miniguides which consist of short descriptions of the prepared chapters, the contents, what needs to be prepared before and who those activities are for:
